School of Nursing, Jiujiang University

Support Measures for Teaching and Scientific Research of Young Teachers

--Explanation on Project Approval and Completion of College-level Research Projects

Based on the current situation of teaching and scientific research and the actual needs of disciplinary development in the School of Nursing, and to boost motivation and support the scientific research of young teachers, the joint meeting of the Party and administration of the School has approved support measures for young teachers recruited between 2021 and 2023. Details are as follows:

1. A total of 6 young teachers were recruited from 2021 to 2023: Xia Menghan, Zhu Xiaoju, Dong Xin, Zou Jingjie, Ye Biyun, Li Yuanyuan.

2. Support for young teachers' teaching and research shall be provided in the form of college-level research project approval (with project approval certificates issued). Each project shall be funded with 3,000 RMB. Project approval shall be reviewed and decided by the Academic Committee of the School of Nursing.

3. Completion requirements: Approved one municipal or departmental teaching/research project; OR Published one paper in a core journal or above; OR - Published two provincial-level teaching reform papers.

4. Funding source: Disciplinary construction fund. Funding management shall be implemented with reference to university-level vertical projects of Jiujiang University.

5. Project cycle: 1 to 1.5 years, starting from the issue date of the approval certificate.
